Brief Contents

Preface xviii

About the Author xxv

Section 1 Introduction 1

Chapter 1 Economics and Institutions: A Shift of Emphasis 3

Section 2 Preferences, Utilities, Demands, and Uncertainty 19

Chapter 2 Consumers and Their Preferences 22

Chapter 3 Utilities—Indifference Curves 41

Chapter 4 Demand and Behavior in Markets 64

Chapter 5 Some Applications of Consumer Demand,
and Welfare Analysis 93

Chapter 6 Uncertainty and the Emergence of Insurance 125

Chapter 7 Uncertainty—Applications and Criticisms 147

Section 3 Production and Cost 163

Chapter 8 The Discovery of Production and Its Technology 165

Chapter 9 Cost and Choice 187

Chapter 10 Cost Curves 211

Section 4 Decision Theory – Static and Dynamic Decisions 223

Chapter 11 Game Theory and the Tools of Strategic Business Analysis 225

Chapter 12 Decision Making Over Time 271

Chapter 13 The Internal Organization of the Firm 290

Section 5 Markets and Market Structures 321

Chapter 14 Perfectly Competitive Markets: Short-Run Analysis 323

Chapter 15 Competitive Markets in the Long Run 342

Chapter 16 Market Institutions and Auctions 358

Chapter 17 The Age of Entrepreneurship: Monopoly 378

Chapter 18 Natural Monopoly and the Economics of Regulation 414

Chapter 19 The World of Oligopoly: Preliminaries to Successful Entry 451

Chapter 20 Market Entry and the Emergence of Perfect Competition 493

Section 6 Welfare, Exchange, and General Equilibrium 521

Chapter 21 The Problem of Exchange 523

Chapter 22 General Equilibrium and the Origins of the Free-Market and
Interventionist Ideologies 553

Section 7 Breakdowns and Market Failure 579

Chapter 23 Moral Hazard and Adverse Selection: Informational Market
Failures 581

Chapter 24 Externalities: The Free Market–Interventionist Battle Continues 607

Section 8 Input Markets and the Origins of Class Struggle 631

Chapter 25 Public Goods, the Consequences of Strategic Voting Behavior,
and the Role of Government 633

Chapter 26 Input Markets and the Origins of Class Conflict 674

Answers to Selected Exercises and Problems 703

Glossary 724

Index 736

Contents

Preface xviii

About the Author xxv

SECTION 1 INTRODUCTION 1

1 ECONOMICS AND INSTITUTIONS: A SHIFT OF EMPHASIS 3

Microeconomics and Institutions 3

Institutional Arrangements: Preordained or Arbitrary?

Microeconomics: A Tool for Understanding Institutions

Conventional Microeconomics 5

The Problem of Allocating Resources

Allocation Strategies

The Effect of Institutions on the Allocation Process

Economic Institutions Defined 7

The Emphasis of This Book 7

Economic Models 8

Mathematical Models

Analogies as Models

Testing Theories—Economics as an Experimental Science 9

The Model Used in This Book and an Outline of the Chapters 10

Section 2: Preferences, Utilities, Demands, and Uncertainty

Section 3: Production and Costs

Section 4: Decision Theory—Static and Dynamic Decisions

Section 5: Markets and Market Structures

Section 6: Welfare, Exchange, and General Equilibrium

Section 7: Breakdowns and Market Failure

Section 8: Input Markets and the Origins of Class Struggle

Three Fundamental Institutions 14

The State

Property Rights

Economic Consulting Firms

Conclusion 18

SECTION 2 PREFERENCES, UTILITIES, DEMANDS, AND UNCERTAINTY 19

2 CONSUMERS AND THEIR PREFERENCES 22

The Consumption Possibility Set 22

A Primitive State of Nature: People and Goods

The Convexity Property of Consumption Possibility Sets

Rationality 25

Binary Relationships among Goods

The Economically Feasible Set 27

Time Constraints

Income or Budget Constraints

Rationality and Choice 30

The Need for Utility Functions

The Continuity Assumption

The Existence of Continuous Utility Functions

Additive and Multiplicative Utility Functions

Cardinal and Ordinal Utility

Psychological Assumptions 35

Psychological Assumption 1: Selfishness

Psychological Assumption 2: Nonsatiation

Psychological Assumption 3: Convexity of Preferences

Conclusion 38**Summary 39****Exercises and Problems 39****3 UTILITIES—INDIFFERENCE CURVES 41****Indifference Curves 42**

Indifference Curves Derived and Defined

The Shape of Indifference Curves

The Marginal Rate of Substitution

Indifference Curves and Tastes

Optimal Consumption Bundles 50

Characteristics of Optimal Bundles

Revealed Preference 56**Conclusion 60****Summary 60****Exercises and Problems 60****4 DEMAND AND BEHAVIOR IN MARKETS 64****Individual Maximization and Impersonal Markets 65****The Problem of Consumer Choice 66****Income Expansion Paths 67****Inferior and Superior Goods 70****Homothetic Preferences and the Characteristics of Goods 72****Price-Consumption Paths 72**

Changing Relative Prices

Deriving the Price-Consumption Path

Demand Curves 74**Demand and Utility Functions 75**

Nonconvex Preferences and Demand

Nonstrictly Convex Preferences and Demand

Income and Substitution Effects	78
The Income Effect	
The Substitution Effect	
The Income and Substitution Effects Combined	
Normal Goods and Downward-Sloping Demand Curves	81
Giffen Goods and Upward-Sloping Demand Curves	82
Compensated and Uncompensated Demand Curves	84
Deriving Compensated Demand Functions	
The Relationship of Compensated and Uncompensated Demand Functions	
Inferior and Superior Goods and Compensated and Uncompensated Demand Curves	
Conclusion	89
Summary	89
Appendix A: The Demand Curve	89
Exercises and Problems	91
5 SOME APPLICATIONS OF CONSUMER DEMAND, AND WELFARE ANALYSIS	93
Application 1: Work and Leisure	94
Application 2: Crime and Punishment	95
Income and Crime	
Changes in the Dishonest Wage	
The Paradox of Crime Prevention	
Measuring the Price Sensitivity of Demand	99
Price-Elasticity Demand Curves	
The Slutsky Equation	104
Properties of Demand Functions	105
Demand Property 1: Price and Income Multiplication	
Demand Property 2: Ordinal Utility	
Demand Property 3: Budget Exhaustion	
From Individual Demand to Market Demand	109
Expenditure Functions	111
Consumer Surplus	112
Approximate Versus Exact Measures of Consumer Surplus: Compensated Versus Uncompensated Demand	
Measures of Consumer Gain	118
Changes in Consumer Surplus	
Price-Compensating Variation	
Price-Compensating Variations and Expenditure Functions	120
Conclusion	121
Summary	121
Appendix A: The Expenditure Function	122
Appendix B: Price-Compensating Variations	123
Exercises and Problems	123

6 UNCERTAINTY AND THE EMERGENCE OF INSURANCE 125

Uncertainty and the Need for Insurance 126

Representing Uncertainty by Probability Distributions 126

Properties of Distribution

The Mean and Variance of a Random Variable

Decision Making under Conditions of Uncertainty: Maximizing

Expected Utility 130

Why Not Maximize Expected Monetary Returns?

Maximizing Expected Utility: Cardinal Utility 134

Ordinal and Cardinal Utility

Utility Functions and Attitudes toward Risk 137

Risk Neutrality

Risk Aversion

Risk Preference

The Desire to Buy Insurance: Risk Aversion 143

Conclusion 145

Summary 145

Exercises and Problems 145

7 UNCERTAINTY—APPLICATIONS AND CRITICISMS 147

The Creation of Insurance and Insurance Markets 148

Risk Pooling: The Growth of Insurance Companies 151

How Could Expected Utility Be wrong? 155

Violation of Probability Rules

Why Use the Expected Utility Theory?

Conclusion 161

Summary 161

Exercises and Problems 162

SECTION 3 PRODUCTION AND COST 163**8 THE DISCOVERY OF PRODUCTION AND ITS TECHNOLOGY 165**

Discovering Production 165

The Discovery of Production and the Rise of an Entrepreneur

Measuring Opportunity Cost, Investment, and Profits

The Production Function and Technology 167

The Marginal Rate of Technical Substitution 169

Describing Technologies 171

Returns to Scale

Elasticity of Substitution

Time Constraints 175

The Immediate Run, the Short Run, and the Long Run

The Relationship Between Time Constraints and the Production Function

Conclusion 180

Summary 180
